Education

VNR Vignana Jyothi Institute of Engineering and Technology, Hyderabad	CGPA: 8.55
Bachelor of Technology (B.Tech) in Computer Science and Business Systems	2022–2026
Sri Chaitanya Junior College, Khammam	Percentage: 97.9%
Intermediate (MPC)	2020–2022
Nirmal Hridai High School, Khammam	GPA: 10.0 / 10.0
Secondary School Certificate (SSC)	2020

Skills

Programming Languages: C, Java, Python, R, SQL, JavaScript, TypeScript

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Artificial Intelligence

Web Technologies: HTML, CSS, React, Node.js, Express.js

Databases: MySQL, MongoDB, PostgreSQL

Backend & Tools: REST APIs, Git, GitHub, Postman, Power BI, AWS

Machine Learning & NLP: K-Means Clustering, Sentence Transformers, Text Embeddings, Similarity Metrics

Soft Skills: Problem Solving, Team Collaboration, Communication, Analytical Thinking

Projects

SmartSkin – Skincare Compatibility System

Tech Stack: Python, Machine Learning, React, REST APIs, Docker, Kubernetes (K8s), Git

- Built a skincare compatibility system to analyze product ingredients and user skin types.
- Implemented machine learning models to predict product suitability and compatibility scores.
- Designed and developed a frontend interface for personalized skincare routine visualization.
- Containerized the application using Docker for environment consistency and worked with Kubernetes (K8s) to run and manage the application inside pods.

Personalized News Recommendation System

Tech Stack: Python, NLP, Sentence Transformers, Web Scraping, Machine Learning

- Developed a personalized news recommendation system using web scraping and NLP techniques.
- Scraped articles from the news websites, extracting titles, descriptions, and metadata.
- Generated sentence embeddings and clustered articles into topics using K-Means clustering.
- Built mood- and interest-based user profiles and applied similarity metrics for recommendations.

Stock Market Analysis Using Power BI

Tech Stack: Power BI, Data Modeling, Data Visualization

- Performed stock market analysis using datasets sourced from NSE India.
- Cleaned, transformed, and modeled data using Power BI tools.
- Developed interactive dashboards to visualize price trends, volumes, and historical performance.
- Created visualizations such as line charts, bar graphs, and heat maps to identify market patterns.

Achievements & Extracurricular Activities

- Winner of the Bug Bounty Competition conducted at BVRITW, Hyderabad.
- Finalist in VNR Cyber W4RZ0N3 2.0 Capture the Flag (CTF) competition at VNRVJIET.
- Finalist in Krith-o-athon Hackathon at VNRVJIET, ranked among the top 30 teams out of 500+ participating teams.
- Served as Documentation Lead for Design-a-thon 2k25 at VNRVJIET, coordinating official event documentation and managed accomodation logistics for participants from 4 different states.
